**Apple TV 4K**

**Cinematic in every sense.**

Apple TV 4K lets you watch movies and shows in amazing 4K HDR — and this fall, it completes the picture with immersive sound from Dolby Atmos.<sup>1</sup> It streams your favorite channels live. Has great content from apps like Netflix, Amazon Prime Video, and ESPN.<sup>2</sup>

And thanks to Siri, you can control it all with just your voice.

macOS Mojave

# Simply powerful.

Using a Mac has always inspired great work. Now macOS Mojave brings new features inspired by its most powerful users, but designed for everyone. Stay better focused on your work in Dark Mode. Automatically organize files using Stacks. Take more kinds of screenshots with less effort. Try four handy new built-in apps, and discover great new ones in the redesigned Mac App Store. Now you can get more out of every click.

Coming this fall

## List of Supported Macs

Apple has said that any Mac introduced in mid-2012 or later will support macOS Mojave, along with the 2010 and 2012 Mac Pro models if they have a Metal capable GPU. That's fairly descriptive, but if you want a specific list of supported Mac hardware for macOS Mojave 10.14 then the following should be helpful to you:

- MacBook Pro (mid 2012 and newer)
- MacBook Air (mid 2012 and newer)
- MacBook (early 2015 and later)
- iMac (late 2012 or newer)
- iMac Pro (2017 or newer)
- Mac Pro (late 2013 or newer, or mid 2010 and mid 2012 models with Metal capable GPU)
- Mac Mini (late 2012 or newer)
