

Trivia Answers Round 4
(7 points possible)

16. What was the last iPhone to use the lightning connector?

One Point Bonus: What was the first iPhone to use the lightning connector?

2nd One Point Bonus: What was the connector that the lightning connector replaced on iPhones and iPods?

Answers (in order): iPhone 14, iPhone 5, 30-pin connector
Lightning is a discontinued proprietary computer bus and power connector, created and designed by Apple Inc. It was introduced on September 12, 2012, in conjunction with the iPhone 5, to replace its predecessor, the 30-pin dock connector, and phased out during 2024–2025, concluding with the withdrawal of the iPhone 14 from sale.
